

Love your old windows but
fed up with them being
rattly, draughty and stuck?

sealasash[®]
window renewal system

sealasash.com.au

Conserving heritage, one window at a time

Sealasash restores your original wooden windows to make them as good as new with high performance draught seals, silky smooth movement and can even install more energy efficient / noise reducing glass if need be. Keep your home's beautiful traditional look with modern levels of comfort and energy efficiency with Sealasash.

^ Why Sealasash?

Older homes and commercial buildings have rich architectural heritage including beautiful old windows and doors. Over time, most wooden windows have been neglected and badly maintained by being painted, nailed and screwed shut in a bid to stop annoying rattles and draughts. Rot can also be an issue.

It doesn't have to be like this

We repair your original windows and doors without compromising their architectural value. We fix any rot and make them energy efficient, draught and rattle proof so they glide open and shut effortlessly. We don't replace, we restore and upgrade the originals.

Sealasash works on wooden doors and any type of wooden window including double sash, horizontal Yorkshire slider and awning/casement windows.

The results speak (and pay) for themselves.

Imagine being able to:

- > Feel more comfortable
- > Reduce energy bills for heating/cooling
- > Make your home quieter and less dusty
- > Stop annoying rattles
- > Effortlessly open and close your windows
- > Protect heritage features and enhance property value

Modern materials, traditional craftsmanship.

We use modern materials combined with traditional craftsmanship to restore your windows. We do as much as necessary and as little as possible, so that you have easy to use, draught sealed and rattle free windows.

What we can do:

- > Remove staff and parting beads
- > Clean contact surfaces and fit high performance brush seals
- > Remove sashes, replace sash cords, service or replace pulleys/balances, check and replace any missing weights
- > Replace any timber that shows signs of rot
- > Reglaze your old glass with your choice of energy efficient, noise reducing or security glass

Professional work done with pride.

At Sealasash we stand by our professionalism, honesty and craftsmanship.

There isn't any easy or clean way to restore your windows, but we believe in leaving a site better than we found it. You won't even know we've been there except for the silky smooth and air tight windows we leave behind.

Miriam, Glebe, Hobart, TAS

Your work crew were amazing. They arrived on time and worked flat out for over 9 hours both days – the three of them were very skilled craftsmen and professional. Nothing was too much trouble and they took great care not to damage anything – no stained glass or other panes broken! Thank you.

Kate, Mornington, VIC

The Guys were great!!! So polite & friendly and cleaned up every night. Brilliant!! They even made sure my new puppy was safe inside by closing the doors each time. The job has been a great success, it has made a big difference to the temperature of the living area. I will refer your company whenever I can.

Andrew & Annette, Perth, WA

There has been a significant reduction in noise transmission from the road and next door neighbours as well as improved thermal properties – important factors in inner-city living and well worth the initial investment. The sash windows glide smoothly and the seals have worked well in blocking out any draughts. The heavy front door is now straight and opens/closes with little effort.

Integrated Consultancy Group, Sydney, NSW

Sealasash utilised their window renewal system to return 108 timber windows in a 1930's block of units in Mosman to a fully functional, compliant and weatherproofed state which in my opinion is superior to the original windows.
